

Dear Parent:

The **'Let's Do It'** program is a parent-child activity incentive program designed to help your child;

- (1) increase their level of physical activity.
- (2) decrease their sedentary (or inactive) behavior.
- (3) and help them to make healthy eating, drinking and snacking choices.

The Daily Activity Log on the following page will allow your child to earn **Let's Do It Points**. To record points just circle the appropriate point value(0,1,2 or 3) for each of the listed activities - according to the point key at the bottom of the activity log. If there is some other '*special activity*' which your child participates in, list it (with an appropriate point value) on the card. By tallying the point totals each day - you and your child will be able to monitor progress - and pinpoint specific areas which may require additional work. The only equipment you need is an inexpensive pedometer to measure daily steps. (Recommended: Yamax SW-200 pedometer - available on our website www.MyTrueAge.com)

Here's Where The Fun Begins !

Use the first week of activity logging to develop a **Let's Do It** point baseline. Beginning the second week - you and your child work together to establish slightly higher point goals and develop appropriate incentives. As your child achieves goals they receive the agreed-upon incentive. *For very young children - a daily 'sticker' or 'mommy reading a special story' would be an appropriate incentive. For older children - a special activity (i.e. trip to the zoo, museum or roller skating) might be a fitting weekly or monthly incentive.* **REMEMBER: staying fit and healthy is not only for kids - it's a family affair.**

If you have any concerns about your child increasing their activity level check with your doctor.

*In the Spirit of Good Health - **Let's Do It !!!***
